

53rd ANNUAL REPORT

53rd Annual General Meeting

The Meeting has been postponed to a date to be determined due to the isolation measures being undertaken to combat the spread of COVID-19

AGENDA

1. Confirm Minutes of last preceding Annual General Meeting held on 3/04/2019.
2. To receive from the Board reports upon the transactions of the Association during the last preceding financial year.
3. To elect Association Treasurer and three (3) Directors of the Board of Management, who retire with the effluxion of time, according to two(2) term maximum requirements.
4. To receive and consider the statement submitted by the Association in accordance with Section 30 (3) of the Act.
5. To appoint an Auditor.
6. To transact any general business which was received in writing by the advertised due date, April 1, 2020 at 4pm.

Chairman

It is my great honour to present the 53rd Annual Report for the Ballarat Basketball Association (Incorporated). This will also be my last Annual Report as Chairman of the Basketball Ballarat Board of Directors.

The previous 12 months have seen the realisation of a number of goals that have been a long time in the making. I am extremely grateful for every members' efforts in assisting our Association to continue to achieve such high level goals through perseverance and tenacity.

On the court, our Senior and Junior Elite teams have represented Basketball Ballarat to an extremely high standard. The Miners team had an extremely successful debut year in the NBL1 competition and almost took out the major goal in this competition's inaugural year. The Rush had another slow start to their season but persevered and had a very successful second half to their NBL1 season. Their prospects for the coming season appear to be extremely promising.

Both of our Youth League teams continued to provide a great basis for our upcoming stars to develop their skills and prepare to move into the senior teams. The significant number of Youth League players who gained court time in the senior teams was testament to the processes and positive culture developed across the Senior Elite Teams.

I would like to congratulate Glenn White in his first year as Senior Elite Teams Manager. He has been able to develop great networks within this area and his immense experience at this level has assisted all participants to be well prepared each week.

The Senior Elite Teams committee is continuing to improve player outcomes from the improved consistency and communications across this program.

Our Junior Elite Teams have completed a hugely successful year with Ballarat players and coaches experiencing success at VJBL, State and National levels. Our culture of "accountability, trust and togetherness" has allowed our Junior teams to continue to attain many achievements under the guidance of our Director of Coaching, Brendan Joyce.

Many thanks to Directors Kim Holloway and Cameron Moore for their leadership of this group.

I would like to acknowledge our Club Coaches and administrators. Their sterling efforts often go unseen and unnoticed. Despite this, the work of the many club volunteers is arguably the most important work undertaken within our organisation. Their efforts can have the most profound impact on young players and their families. The hours of volunteering and dedication provided to develop our young stars is a great strength of Basketball Ballarat. We also need to recognise the support of local company Skin Ski and Surf for their sponsorship of our Holiday programs. These camps are often the impetus for a young athlete to commence their journey in basketball.

I would like to recognise the ongoing work of Director Tim Walshe and Andrew Day for their commendable work in the Marketing, Social Media and Communications area. The improvements in community partnerships and communications with a huge variety of club members and community organisations is greatly appreciated. Andrew has worked extremely long hours to lock in some outstanding sponsorship partnerships for a variety of areas. The work completed in the last 12 months has provided an excellent springboard for future improvements in this area.

You will see in our financial report that we have continued to operate in a responsible manner over the last year. Despite experiencing a number of difficulties, we have continued to respond proactively and have grown our business despite these issues. I would like to thank our Treasurer, Kym Cassells for her wisdom and considered leadership of our Finance Committee. I am confident that our finances are in experienced and skilled hands.

Perhaps our greatest achievement in the past year, has been the opening of our new Basketball Stadium (BSEC). We are very appreciative of the consistent hard work of Peter Eddy, Mark Valentine, Board Director Kym Squire and Nick Grylewicz over a number of years to see the building phase through to completion. Our official opening earlier this year was the culmination of so much work by so many Basketball Ballarat members. We are very aware that the hard work will continue as we realize the completion of Stage 2 of this great facility.

I would like to acknowledge the huge support we have received from the City of Ballarat throughout this process and with the maintenance of many of our current programs. Without their support, expertise and advice we would not be in the strong position we are in now.

You would be aware that, our long-serving CEO, Peter Eddy, plans to retire later this year. There will be an appropriate time later in the year for us to recognise his immense impact on our association and Basketball throughout Australia. For now, I would like to thank Peter for his indefatigable energy levels, his imaginative vision, his considered wisdom and most importantly, his ability to get the best out of all of us. Peter will be sorely missed when he retires but I know he will continue to support Basketball Ballarat in many ways long into the future.

The appointment process for our new CEO will be competently handled by Directors Simon Cornwell, Kim Holloway and Tim Walshe. I am confident they will be able to identify a suitable replacement for this incredibly important role within our organisation.

Finally, I would like to take this opportunity to thank so many people who have made my time on the Board so fulfilling and gratifying. When I first became a member of the Committee of Management in 2012, I didn't think I would be a part of such a dynamic era in our organisation. Similarly, when I took on the role of Chairman of the Board of Directors in 2016, I certainly didn't contemplate the rate of change we would experience in the next five years. It is quite humbling to look back and reflect on the many great achievements we have realised in such a relatively short period of time.

I trust that my time as a Director and as Board Chairman, has seen our Association grow in a number of ways. I believe that we are now a very professional organisation able to

weather the "storms" that beset all sporting organisations. I trust that the processes and structures that we have put in place will allow the Association to continue to grow and prosper well into the future.

Thank you to everyone who has supported me and the association over the last nine years. I wish you all the best and ask that you never forget to keep the maxim, "What is best for Basketball" at the forefront of your thoughts when you confront the difficult decisions that often come our way.

I commend this annual report to you and encourage you to peruse the various reports presented. We are truly a successful sporting organisation!

David Stuchbery – Chairman

CEO

I present this report, my last as CEO of Basketball Ballarat with a mix of pride and sadness.

Pride in all that we have achieved as an Association over the past 70 odd years and sadness that my time as a Director then CEO for over forty years is coming to an end in 2020.

With my current contract due to finish in December 2020, I know that the time is right for the ever-growing business of Basketball Ballarat, the Ballarat Sports Events Centre and the Minerdome to have the next generation leader ready to take the organisation forward into the next phase of its growth in Ballarat West and Regional Victoria.

I am convinced that Basketball Ballarat will benefit greatly from fresh ideas and new leadership.

I do wish to take this opportunity to acknowledge the support of my wife Maxine and daughter Jessica whose support and encouragement has allowed me to devote extra time to my role over the years.

BASKETBALL DEPARTMENT & CLUBS

Last year continued to present many challenges for our basketball department, however, the move into B.SEC also provided opportunities to establish a separate reception service and allow the basketball staff to focus solely on its core duties.

The appointment of Chloe Dunmore as Referee Manager late in 2019 has also meant extra resources and a singular focus on referee education and training.

A meeting with all our Club representatives in January 2020 reflected on the past few years and on the plans put in place to deliver an improved service. This was an excellent meeting and I am very confident that, with much of our work on the building projects behind us, we can ensure that our members and our clubs are well supported.

We have also restructured our Competition Supervisor roles under the oversight of a Lead Supervisor who will mentor and develop our competition team.

Technical Officials Commission Chair Terry Davies continues to guide this area of our operations and we are grateful for his support, given his heavy professional work commitments.

BALLARAT SPORTS EVENTS CENTRE (B.SEC)

The move to B.SEC in July 2019 came in the middle of one of our busiest years ever and proved to be one of the most challenging opportunities presented to us.

Overnight we doubled our sports capacity, inherited a venue which was still having finishing touches completed and with temperature and IT systems that were still being stabilised.

Largely due to the extraordinary efforts of all our staff and volunteers we survived July and by late August our sense of confidence and capability went from being totally overwhelmed to a quiet assurance that we would manage and succeed.

Unknown costs, new learnings about the space we had to manage, and some venue faults / omissions were all a challenge for us to negotiate and resolve.

In September 2019 we hosted B.SEC's first major event with a crowd of 2,800, then backed up weeks later with an 8-day U/14 National Championship, the biggest event we have ever hosted.

When we started our next local competition seasons in late October, we had 28 extra junior basketball teams and 200 new junior netball players.

By the close of 2019, B.SEC has met and in many cases exceeded all targets set for it.

We have also identified additional revenue opportunities from use of our concourse space at B.SEC for community events.

We have also committed to a Healthy Food offer for both our sports venues from our opening in 2019.

The completion of the \$5.2M Stage 2 Strength, Conditioning and Learning Centre, function rooms and sports lounge will all add further revenue opportunities to the business from 2021.

As part of our plan for B.SEC to be the regional indoor sports base for Western Victoria, we have two Netball Victoria staff and one Basketball Victoria Regional Hub coach based at the venue. We will be developing a range of regional programs and services for Western Victoria from 2020.

I would like to acknowledge the work of all our staff in managing this project, especially Mark Valentine and Mal Harper and Major Projects committee member Nick Grylewicz on leading this work.

FUTURE PROJECTS

In preparation for the growth of our city into Ballarat West, Basketball Ballarat has been actively working on expansion plans for a four-court indoor community sports centre at Phoenix College to be well advanced in 2020.

Basketball Ballarat is currently negotiating a Community Joint User Agreement with the College and the Victorian School Building Authority to have after school hours management rights from 2022. With this responsibility we also accept liability to meet a proportional share of the maintenance and operating costs of the new venue.

This will allow us to move our full suite of programs and competitions across a range of sports into Ballarat West and to extend our footprint to meet the growing needs of Ballarat West.

Basketball Ballarat continues in a stage of transition from a locally focused basketball operation to a major regional indoor sports provider and facilities manager and we continue to re-define our organisational structure and staff profile to move towards this future. This is an ongoing process.

We are also developing our plans to meet the broader needs of Regional Victoria as part of our commitment to secure Federal Government funding for B.SEC.

With the next Federal and State elections due in 2022 Basketball Ballarat has been working on setting out and communicating its vision for the future regarding:

- Precinct Governance & Planning
- Sale Yards Site
- John Valves Site

MINERDOME

In 2019 we received a SRV Community low Interest subsidized loan opportunity for \$770,000 for a new MSC lift, foyer and Adaptive Sports upgrades in MinerDome. Planning approvals have been received for this project and work will commence in 2020.

The SRV upgrade will not only make the venue more accessible for all abilities athletes but will also help to retain aging members longer and to build a new function room trade that we have not been able to offer in the past.

Volleyball Ballarat has also relocated from a school gym to having 4 courts and office space available at the MinerDome so that they can grow their sport and target suitable events.

The Association also assessed the value / savings to convert to solar energy and completed this project in 2019.

ELITE TEAMS

Our Elite Teams Program continues to evolve and 2019 saw the program again grow in the number of representative teams playing in State level programs on a weekly basis.

The integration of our Junior and Senior Elite Programs continues to challenge our committee and staff as we work hard to ensure the right balance of focus and support to each area.

With the move to B.SEC as the Elite Teams base, we now have to provide the resources and support we need to ensure the many volunteers we have, and on which our program relies, are well catered for.

Clearly defining the region from which we draw athletes and provide a career pathway for regional athletes is an ongoing focus as we actively encourage a strong focus on the development of our local regional talent to underpin the numbers available at Youth League and NBL1 levels in the future.

In 2019 Brendan Joyce was appointed to the Director of Coaching role along with the Miners coaching position. It is always a challenge balancing the competing demands and timelines of each role and the Elite Teams Committee is reviewing this structure mid-2020 to see if we have achieved a good outcome.

MSC

Our Club operations had a very good year and the move to B.SEC shows early signs of being beneficial to the Club as parking becomes more accessible.

Our bar, meal and gaming operations were all positive last year while wagering suffered a downturn which is an industry wide issue as more customers use their phone services for sports betting.

The refresh of our Gaming Room early in 2019 was also successful.

BISTRO OPERATIONS

After independent external reviews late in 2018 the Bistro operation and location was overhauled, and the results have been very positive.

STRATEGIC PLAN

An update of the plan will be presented to the Annual Meeting on the key matters addressed and I am pleased to report that our adherence to and monitoring of the plan has been a consistent focus throughout 2018 and 2019.

Basketball Ballarat and its associated entities will need to develop a new plan late in 2020 once a new CEO is in place.

BUSINESS DEVELOPMENT & COMMUNITY ENGAGEMENT

Andrew Day has taken our community and social media footprint to a whole new level and our position as a leader in community recreation continues to grow.

In 2020 he is encouraging growth in the merchandise and membership space which will further grow our business.

FINANCE

Our Audit Report on our 2019 operations was an acceptable result and the Board noted the audit observations around debt and the need to formalize a plan to reduce debt. This has been foremost in our minds in 2019 and continues to be a strong focus area.

2019 was a year of significant change and re-structure for Basketball Ballarat within its own business and as it evolved into its new business model from July 2019 when it took on management responsibility for the Ballarat Sports Events Centre. B.SEC came online nearly three months later than expected when the 2019 budget was framed which had an impact on some projections from this area.

Our performance across all sectors of our business for 2019, budget to actual, was in line with the Board's expectations.

After long and detailed consideration, the Association made the decision to change banks for just the second time in our 50-year history and accepted an offer from the Bank of Melbourne for our business. This transition took some months but is now fully complete and the new operations are suited to our current and future needs.

A new property valuation was also commissioned, and the results give us comfort in the value of the Association assets.

The two key income targets that underpin our budget come from our sports competitions and licensed club.

Both areas performed very well in 2019 whilst we were able to manage and contain costs across the business to ensure a positive overall result.

Basketball Ballarat also grew its community and corporate partner income in 2019 and set up new long-term contracts with the City of Ballarat and several key partners. Despite losing one key partner after 25 years due to a change of direction in that business we have managed to diversify our partnership base and engage with new clients to offset that loss. Three of our major renewals for 2020 were for periods between three and five years from 2020.

We also attract significant private donor income which is now into its twelfth year and this has been increased and renewed again in 2020.

In October 2019 the Association introduced a Facilities Contribution Fee on all competitions and venue hire to represent our members contribution to the new B.SEC venue and Minerdomes upgrades. Between \$55,000 and \$60,000 per annum will be generated from this program and this amount will be paid monthly off our current loan account to reduce debt.

The House Fundraiser for 2019 exceeded its budget target with an additional surplus available.

Planning for the 2020 House Fundraiser is well advanced, and we would expect to meet and most likely exceed our budget forecast for this item in 2020. We are grateful to Integra for their generous support and the work they do to drive this annual initiative.

ORGANISATIONAL STRUCTURE, STAFF & VOLUNTEER MATTERS:

Last year when I informed the Board of my decision to retire they appointed three Directors to work with the CEO on

both a review of our Organisational Structure to cater for the integration of B.SEC into the business and the transition to a new CEO in 2020.

The subcommittee has met four times to date and reported to the full Board on each occasion. New positions have been identified and we have prioritized our needs and commenced to fill new positions as required.

A key finance services support role is seen as the next priority to be put in place in early 2020.

Another significant restructure was to create separate Leadership Teams for B.SEC and the Minerdomes. A senior Manager and two senior staff have been appointed to these teams to take effective control of the day to day operations of each venue. This move has proved very successful in streamlining the decision-making process and in establishing a sense of ownership for each venue by key staff.

Now that we are close to having a timeline for the B.SEC Stage 2 works to be complete the Organisational Subcommittee will begin to develop a position regarding the two cafes and two licensed clubs that will be part of the business model by late 2020. Initial thoughts have been that we will establish a Hospitality Services department to merge all these areas of operation together.

GOVERNANCE

The Board is the strongest and most professional we have had in all my time at Basketball Ballarat. Their leadership and diverse skill set has made the past year one of significant growth for us.

Even with Nick Grylewicz finishing his maximum term he has not been lost to the Association as he has moved to a Major Projects subcommittee role.

CONCLUSION

As I close my final report I remain in awe of our dedicated Board of Directors, staff and the hundreds of volunteers that make Basketball Ballarat, Wendouree Netball and all our venues work so well.

I would also like to thank our Chair David Stuchbery for his leadership of Basketball Ballarat. David's tenure as a Director has now expired but I hope he will not be lost to our sport in the future.

Our clubs also continue to do an enormous job fielding and managing so many teams each year.

Thank you to all who support our vision and help us to achieve the goals set out in our strategic plan.

Basketball Ballarat is recognised nationally as a leader in regional sport and this is a result of the collective efforts of all involved.

To the Directors of Basketball Ballarat and my senior managers, I wish to thank you for the leadership, support, vision and governance you provide to make Basketball Ballarat the best organisation it can be.

I will continue to have an active interest in all your work into the future.

Peter Eddy – CEO

Minerdome Sports Club

2019 saw us continue to strive to achieve our goal of being a community-focused neighbourhood sporting club offering a range of hospitality services in a friendly environment to members and guests.

The Club's Bistro operation still offered good priced quality dining, and we managed to increase sales as well as reduce our operational costs. This saw us present a final result that is the closest to breaking even that we have experienced for many years. Our team structure was fairly static in 2019, but we have also managed to introduce some more depth. Be assured, we aim to provide a viable, popular, dining alternative where members can be proud to bring their family & guests.

Our Saturday night members' nights have included some great light entertainment including: The Darby's, Norm Whitten, The Basic Black Trio & Doug Jolly. We have also offered free kids face-painting as well as organising Aussie Sports for the kids.

With our large screen vision, combined with Fox Sports, we have been able to showcase NBL games & finals, NBA games & finals, all AFL games & finals, as well as other worldwide and Australian major sporting events.

We are constantly trying to provide better and different offers to our members; including Easter with three massive hampers, AFL Guernseys, a Weber BBQ, hundreds of dollars in eftpos cards, multiple whitegoods and electrical items, and a Christmas Bonanza which included over \$1500 in prizes comprising of multiple hampers, eskies, shopping vouchers, and Dining Vouchers. Just ask our friendly staff for details on any of our member promotions.

Our Friday night Super raffles are still the envy of many other Clubs & Hotels. With great prizes on offer weekly, and with Damien as host, we hand out over a dozen prizes each week.

Growth in membership has been maintained at a steady level, and inclusion of our Basketball members also being able to enjoy a healthy discount in the Bistro (usually up to 10%) and bar areas are always well received.

It is relatively easy to increase your membership to our "Minerdome Rewards" membership level which has the following advantages:

- Earning points with every food & beverage purchase at the Club
- A healthy discount in the Bistro on most meal items.
- We also have some MEMBER theme nights which can be viewed easily on our webpage
- Eligibility for our Members Cash Draws every Tuesday & Friday nights
- A discount on all beverages, and being able to redeem points on purchases at the Club upon presentation of their card.
- Tiering so that the most loyal members receive greater benefits.
- A separate membership level is also available for those who wish to earn points in gaming.
- Saturday night entertainment

Our "Actives" Older Adults Club continues with its weekly meeting of a Wednesday morning in the Sovereign Room with up to 70 members, and they enjoy many in-house activities, guest speakers and day trips.

We are also working with the City of Ballarat & U3A as a community based gathering place for our Senior Community. For example: Bunch4Lunch, Walking Basketball & meditation groups.

We have continued with some "Free Member Nights" with events such as Trivia Nights, Family Bingo Nights and also some light entertainment in the Bistro.

We continue to operate Bingo every Thursday afternoon, rain, hail or shine, with eyes down @ 1.05pm. Come along and join in the fun!

I would like to thank all the staff for their support and loyalty, and in particular, their untiring efforts in securing a great experience for all members when visiting. With our continued focus on improving the venue, I believe that we offer great value to those members who choose to utilise our Venue.

In closing, at the time of writing, we are all experiencing uncertain times, with an unknown time frame as when we may be able to return to normality.

All we ask is that when we are able to re-open that you consider your "local club" as a dining or entertainment choice. Stay healthy & safe.

Mal Harper – Manager

Basketball Department

In 2019 domestic competitions continued to grow in anticipation of B.SEC opening mid-year. Team entries leading into the 2019 Championship Season for the first time surpassed 500. As a consequence, the season began with 10.10pm games being played across 3 nights of senior competitions, 9.40pm games on a Friday evening and 8.10am games on a Saturday morning. For many players and parents who had been doing this for years the relief was palpable as they could now see the light at the end of the tunnel. By the time the mid-season break arrived, teams returned to a brand new 8 court venue fully equipped to provide better playing times, closer venues and a fresh mood.

This transition wasn't all roses though with many obstacles before teams hit the courts. Change of game times and venues mid-season is never an easy task. One of the most exciting things was to finally have multiple sports being able to play side by side under the one roof. The thought of exposing not only basketball and netball side by side under the same roof, but bringing in other users like Volleyball or external events at the same time was great to see the venue being used to its full potential.

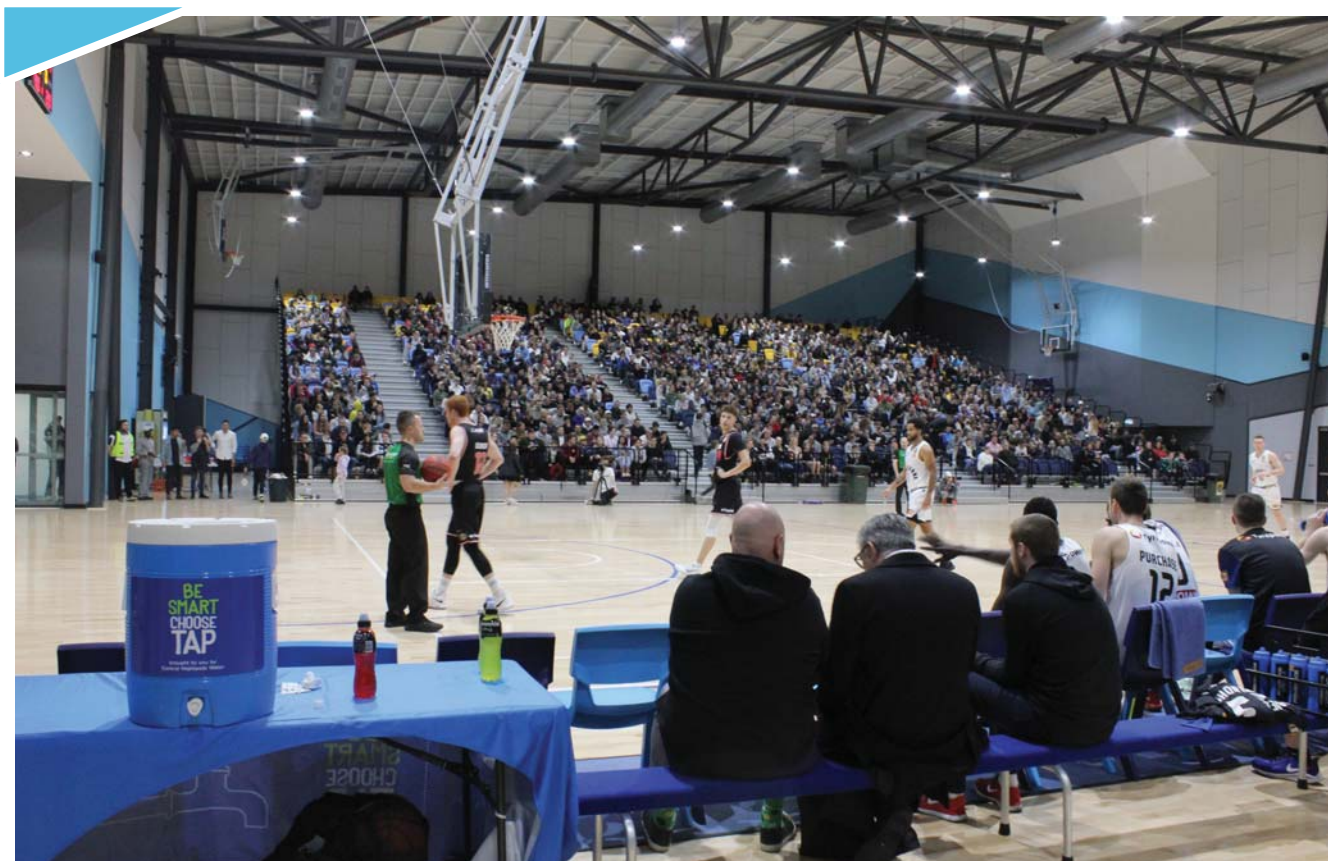

Saints Basketball club took out top honors in both the A Men and Women grand finals winning the double in our Championship season. All 8 major clubs were represented throughout our finals series, winning at least one of the 65 divisions played in the season. 12 of our Individual teams managed to take out grand final wins in the senior competitions.

The trend continued into the Summer 19/20 season with again numbers continuing to rise. Junior games per week increased by 15, with senior numbers remaining stable. Our biggest adjustment leading into this season was changing from under 18's as the cut off age for Junior competition to under 19's. This has allowed many school students to finish playing in their senior year. Whilst this did contribute to the increase in numbers overall, the most pleasing increase was in our under 8 competition, where participation numbers doubled.

2019 was a whirlwind year with all the changes happening in the basketball landscape and all of this wouldn't have been possible without the help of our dedicated club committees, coaches, team managers, players, parents and spectators. The ability to take so much in their stride and continue to show up and play the sport we all love has been amazing. To all reception staff, support staff, canteen staff, supervisors, referee advisors and senior staff past and present your support and help is greatly appreciated also. Being able to rely on such a great team makes it easier to know the vision of the association is being carried on early on those Saturdays up at the Arch in the middle of winter, or late at night throughout the week.

I'm excited to see where Basketball will take us in 2020. What new heights, changes and challenges will front us and how we will come through it all.

Matt Newton – Basketball Manager

Events

Much of 2019 was spent in anticipation of BSEC opening and then seeing what might become possible as we doubled the court spaces available for competition, training and additional events.

The sense of anticipation was a little dampened as we approached the official handover in mid July 2019 when it was determined that a small word was going to be missing from the Occupancy Certificate and that word was "and". BSEC was to be come the Ballarat Sports Events Centre, not the Ballarat Sports and Events Centre.

The explanation that fire and safety installations were in place based upon sporting activities and subsequent numbers of spectators but not for other types of events which might bring a different range of materials into the venue, was grudgingly accepted.

This minor limitation has meant that groups which have become regulars in the old WSEC building cannot grow their event at BSEC – they will either need to keep their size suitable for the old WSEC area or consider the Minerdomes if they wish to expand.

In reality what is unfolding at BSEC is demonstrating the old adage "Build it and they will come". Training schedules for Clubs and Elite teams quickly filled up the available time and with Junior competitions expanding in Basketball and commencing in Netball, we are virtually at capacity during the peak times of 4-10pm.

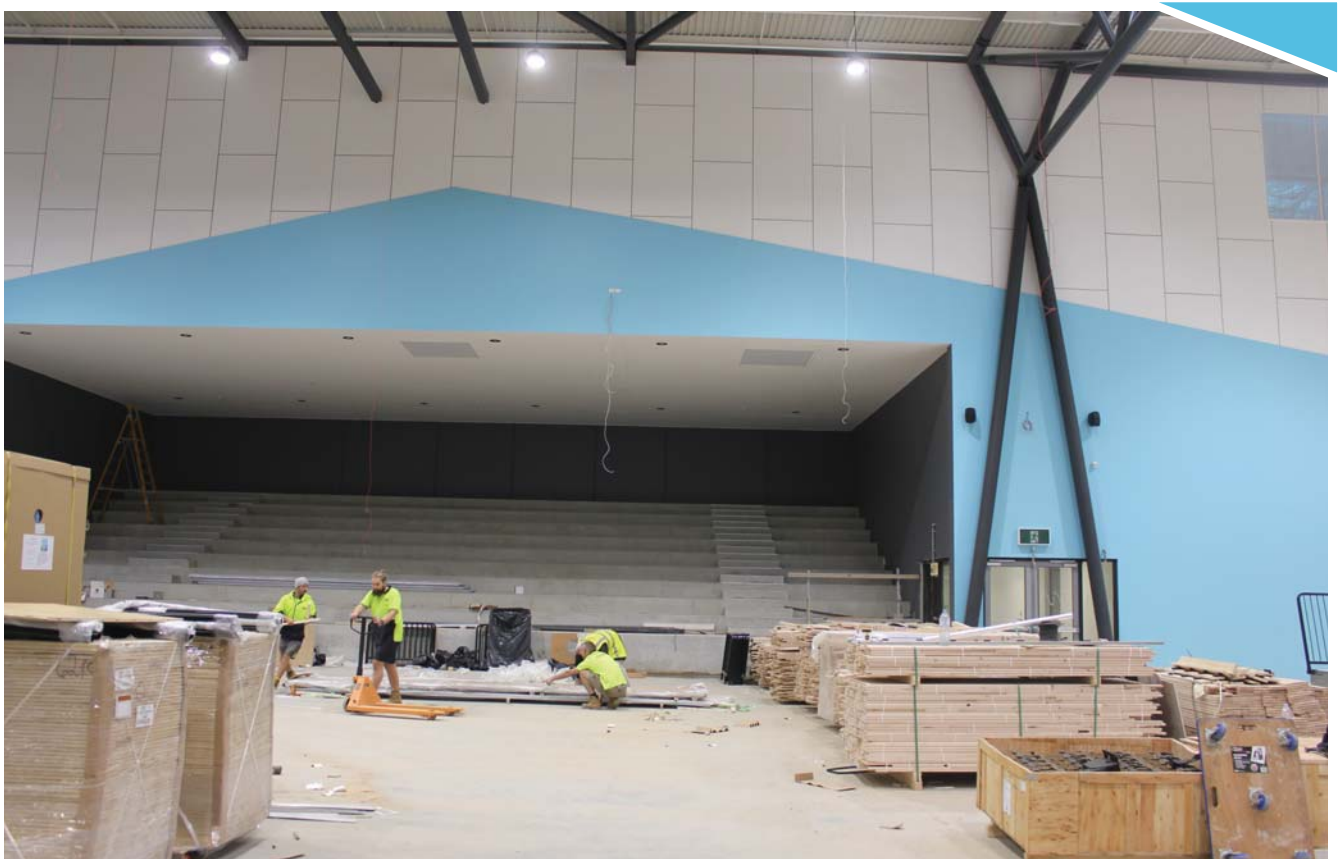

Our wish to present major sports events to the people of Ballarat and the wider Western region has been realised with an NBL Practice match staged in September, the

U/14 Australian Club Basketball Championships being held in October and a WNBL game for points presented in December. The former two saw the venue fully set with both grandstands crammed with eager spectators.

The versatility of our spaces has been realized with our partnership now in place with Volleyball, a full day of fitness testing for potential draftees for the Greater Western Rebels football team and a day of activity demonstrations put together to celebrate National Disability Day. Netball carnivals are now possible with 8 courts available and even the foyer has been used for business breakfasts and announcements.

The Minerdomes has not been forgotten amidst all the excitement and a number of regular activities and events will continue to be staged there or shared across the two. 2020 promises to deliver even more in the events space and all will be further enhanced with the completion of Stage 2 due towards the end of the year.

Mark Valentine – Operations Manager

Technical Officials

The Technical Officials Department has had a successful year, especially towards the end of 2019.

Achievements by referees, referee coaches, scorers and statisticians include:

- Southern Cross Challenge Referees – Fletcher Martin, Isaac Martin, Neil Black,
- Australian Country Junior Basketball Cup– Hannah Blythman, Erin Blythman, Mitch Bond as referees. Vicky Lowe as scoretable official
- USA Boomers games Statistician – Matt Zakynthinos – see additional article
- U14 National Club Championships Scorers – Donna Dunmore, Vicky Lowe, Gypsy Dunmore, Maureen Florakx, Robin Ash, Michael Meade, Bill Powell, Lynne Perovic, Kobi Cheeseman, Robyn Gibson, Carolyn Chase, Stephen Bairstow, Rachel Bairstow, Victoria Shirley, Nahida Fakoury, Karen Crick, Rhonda Irvin
- U12 Jamboree – Kelly Jones (ref coach)
- Vicky Lowe – 2019 Scoretable Official of the Year
- WNBL – Vicky Lowe, Kelvin Short, Robin Ash

REFEREES

The TOC and basketball office have been working tirelessly to clean up protocols, policies and procedures to be more in line with Basketball Victoria.

This has largely taken place in grading procedures and the most up to date strategies and technology in doing this. We have introduced JotForms, which are electronic evaluation sheets. These are much more user friendly and easy to access, with referee coaches completing these court side. At the end of a game being evaluated, referee coaches can submit their JotForm reviews, which then emails a copy to them, the referees being looked at, and the Referee Manager for filing.

Culture has been improving in the past few months, and while gaining some successes, there is still more work to be done. Referees are being held much more accountable for games missed and late notice withdrawals from rosters with a demerit point system being heavily enforced. This

along with administering rosters in a more timely manner has allowed for the Referee Manager to have more time in preparing development strategies and administration work rather than wasting hours on finding replacement referees to fill rosters.

The opening of the additional 6 courts was challenging in finding more referees across a larger number of games and for a time there were games with one referee. However, this has improved with most games providing two referees per court. While there is still the occasional late game with only one referee, we are working on ways to alleviate this problem and strategic planning around rostering/availabilities of referees, particularly juniors. Junior competitions, particularly Saturdays, have reduced the number of games being completed by referees from averaging 7 down to 4 per day. This has assisted us in encouraging quality over quantity, in that our referees are now more focused and less fatigued on games due to more breaks and less games per day.

Referee coaching program trial has been successful, and hopefully getting ready for long term use approval. Coaching points can be much more easily spread across the association, rather than relying on emails from the Referee Manager. Green shirts trainee Referees are progressing through much more rapidly now, with programs and more frequent referee coaches in place. Many referees are now having discussions with referee coaches about potential pathways and development opportunities at BVC events and tournaments. This is causing referees to take their job more seriously and think long term about what they wish to get out of our program, which sheds a positive light on Ballarat Basketball and ties back in with the improving culture.

SCORERS

Vicky Lowe did an exceptional job of organising the Under 14 National Club Championships recruiting, rostering and ensuring all scorers (especially from out of town) were provided with high quality care during their stay. Vicky and Kira organised and ran a beginner school, with many new recruits assisting in domestic scoring and learning the different aspects of a score table. Domestic finals have had reasonable numbers of scorers, and the TOC are working towards increasing this to create more opportunities for people to score major leagues such as Big V and NBL1, rather than being constrained to domestic games during the week only.

Chloe Dunmore – Referee Manager

Matt Zakynthinos to take courtside seat for team USA clash

Kyle Evans – *Special thanks to the Ballarat Courier for permission to reproduce this article and photo*

Ballarat basketball statistician Matt Zakynthinos has a ticket no amount of money can pay for.

For the last 13 years he has been courtside for Ballarat Miners and Rush games, taking the statistics of the best players to come through the city.

And now his years of experience have paid off in the ultimate way. The 24-year-old will have the best seat in the house at next month's Australian Boomers showdown with USA Basketball at Marvel stadium.

Taking a seat between the players, he will record live stats which will be webcast around the world. Global superstars such as Lebron James and Anthony Davis will be within arm's reach of Zakynthinos.

It is a thought that is both exciting and unnerving ahead of the biggest game of his life.

"I don't know how I'll go because there are so many big players playing in this upcoming game," he told The Courier.

Next month's game between Australia and USA basketball is being heralded as the biggest ever to take place in Australia.

"It's awesome, you don't expect it and it's very exciting. It's only a month away already so I'm very keen for it."

The selection came as a big thrill for Zakynthinos who put his hand up for the gig after Basketball Australia sent out an expression of interest. It didn't take them long to realise he was the man for the job.

Beginning at the age of 11, Zakynthinos was recording statistics at an international level by the time he was a teenager.

"My first international game really sticks out," he recalls.

"It was just before the 2012 Olympics in a qualifying game between Australia and Greece. That was my first real big game. I met Andrew Bogut in the lead-up as well which was cool."

In the time since, the unique talent has yielded him jobs at SEABL matches, as well as events like the Commonwealth Games.

More recently he has found himself behind the computer at Melbourne United games, and Ballarat Miners matches in this year's inaugural NBL1 season.

"I think having worked for the NBL over the last couple of years, I've shown I'm capable of handling that level, and having that experience with the Commonwealth Games helps as well," he said.

The self-described 'massive' Boston Celtics supporter admits it may be hard to concentrate with Celtics players Kemba Walker and Jason Tatum taking the court. But he expected Houston Rockets star James Harden to provide the most entertainment.

"I'm most excited about watching James Harden. He's left handed and I'm a lefty as well," he said.

Despite the international success, the basketball lover is still most happy sitting courtside for his beloved Miners.

He said this season had been a joy to watch.

"It's been very exciting to watch this year, they're playing as a team, they are winning games and putting fans in seats which is what you want to see," he said.

DREAM JOB: Ballarat's Matt Zakynthinos has been named courtside for the Australian Boomers clash with USA Basketball. **Picture** Adam Trafford

Wendouree Netball Association

The 2019 Wendouree Netball Association year was its most successful year to date with the opening of the Ballarat Sports Events Centre (B.SEC).

The Association once again hosted former Australian Diamond, Netball World Champion and Commonwealth Games Gold Medallist Julie Corletto, for The Julie Corletto Netball Clinic. This program remains a popular netball feature on our calendar with junior netballers from across the region experiencing a day of drills, skills, workouts and nutritional guidance.

With the move into B.SEC, local competition has more than doubled in terms of teams and members participating in Netball. This growth has allowed our Association to expand on existing days of competition and move into additional space.

In a first for the Association, NetSetGO became another successful feature program throughout both terms three & four. This allowed netball to have a presence in the venue on an additional night of operations.

The program is a skill based introduction to the sport over three stages for five to 10 year olds. The success of the program saw Wendouree Netball Association nominated as a NetSetGO Centre of the Year for the Netball Victoria Community Awards. Across Victoria in 2019, there were 241 NetSetGO Centres with Wendouree progressing to be one of four finalists, which was a huge achievement.

Along with our new NetSetGO program, the Wendouree Junior Netball League (JNL) was established which consisted of 12, 13 and 15 & Under age divisions – open to females and males. With a previous non-existent junior presence, our JNL Competitions saw 200 junior age netballers playing weekly across six sections.

A new Social Netball Competition was also introduced in 2019 and with great response. It allowed us to capture a whole new demographic of teams with players that might not have considered playing the sport or have returned after a hiatus away from the game. With Social Netball playing across an additional day within the venue, Wendouree Netball Association competitions and programs now are scheduled five days a week out of B.SEC – an enormous growth.

Mixed and Ladies netball competitions have also continued to expand across more courts with the number of grades on offer required to increase accordingly. Throughout 2019, Ballarat's four major netball leagues and associations, the Ballarat Football Netball League, Ballarat Netball Association, Central Highlands Netball League and the Wendouree Netball Association, together contributed 196 senior teams, or around 1600 individual participants, to netball in the Ballarat region. Out of these 196 teams, the Wendouree Netball Association contributed 61, making our competitions the highest senior participated in the region.

WENDOUREE NETBALL ASSOCIATION PARTICIPATION

(Ballarat Sports Events Centre Open July 2019)

	Jan – June 2019	July – Dec 2019
Junior Members (5–15 years)	0	211
Junior Members (16–17 years)	9	27
Senior Members	360	512
Total	369	750

In 2019 the #ThisGirlCanVIC initiative which focuses on inspiring women to get active, wherever and whenever they choose, without being judged, came to our venue headlined by former Australian Diamond and netball legend Sharelle McMahon. Sharelle openly spoke about her own journey from grassroots netball to the elite level to a large gathering of our members and fans from the region. This visit coincided with hosting Netball Victoria (NV) Zone Academy Selections with the best 17 & Under players from across the Western Region converging on the venue. This became the second consecutive year we have been selected to host Zone Academy Selections that lead to hosting training for the successful players along this elite pathway. We have secured this agreement with Netball Victoria ongoing into 2020 and 2021.

We were privileged to also host the VACSAL Indigenous Netball Carnival which saw 112 games played across a huge day of netball in our first major netball tournament.

In November 2019 Wendouree Netball Association for the first time was the successful applicant to be the host association of the Netball Victoria Association Championships in May 2020. This is a significant event on the Netball Victoria calendar. Although we are all experiencing uncertainty at this time regarding events, competitions and non-essential gatherings, and there is a likelihood that this event shall be postponed, we remain committed. Committed to providing all-inclusive netball programs and competitions that anyone in our netball community can participate in. Committed, and confident to successfully secure future major netball events and tournaments which support netball in our region.

And most importantly, committed to ensuring a healthy ongoing netball presence at the Ballarat Sports Events Centre into 2020 and beyond.

Jordan O'Keefe – Manager Wendouree Netball Association

BSEC Official Opening

Article and photo reproduced permission of The Courier Aug 4, 2019

It's official. With a welcome to country, smoking ceremony, speeches and a cutting of ribbons, the city's flagship new indoor sports and events centre formally opened today.

With speeches echoing under the huge roof of the 3000-seat showcourt, a procession of dignitaries welcomed the arrival of the Ballarat Sports and Events Centre, or BSEC as it is already known.

A crowd of players, parents, politicians, council staff and sporting officials listened from one of the banks of retractable seats.

Senator Jane Hume, the City of Ballarat Mayor Samantha McIntosh and Wendouree MP Juliana Addison all stood up to pay tribute to those that made it happen.

As well as acknowledging the funding, which included contributions at council, state and federal government levels, each of them made special mention of the CEO of Ballarat Basketball Peter Eddy.

Cr McIntosh said the centre would help "uphold [Ballarat's] reputation as one of the great sporting cities in Australia."

Works on the \$24 million facility – which has six new courts that can be used for basketball, volleyball and netball – began in March 2018.

The \$5.2 million stage two of the project development will add four outdoor three-on-three (street ball) courts, a strength and conditioning centre and a new skin for the existing building.

Mr Eddy himself said the stadium's opening was the fulfilment of a dream that had begun back in 2006.

"Yes, it's been a long time," he said. "But it's been a great journey."

He said the centre will be the equal of any in regional Australia and a venue "we should all be very proud of."

He paid particular tribute to the MP Jaala Pulford, who was unable to be at the opening. He said Ms Pulford had been backing the project "as much as anyone" for the past decade.

He also thanked local builders AW Nicholson for their professionalism and dedication and to the architects "whose vision inspired this terrific facility."

The courts will host their first major game on Friday September 13 when Melbourne United face Illawarra Hawks. The Hawks team is expected to include LeMelo Ball, a 17-year-old point guard from California widely considered one of the world's most exciting up-and-coming players.

A basketball coaches conference will also take place at the centre in October, while Ballarat Miners and Ballarat Rush will transfer their games to the stadium next season.

TIMELINE

- 2004-05:** Minerdomes upgrades to host basketball for Commonwealth Games in March 2006.
- 2010:** Indoor sports groups enter talks to address critical court shortage.
- March 2012:** Plans for new six-court facility in Wendouree made public.
- May 2013:** Council commits to deliver major new indoor sports facility in five-year plan.
- 2014:** Labor state government delivers \$9 million, Council \$5 million.
- 2015-16:** Project knocked back three times for federal grant.
- July 31, 2017:** Federal government announces \$10 million for project.
- March 2018:** First sod turned on project.
- November 2018:** \$5.2 million state boost for stage two.
- July 2019:** Stadium opens to community.
- August 4, 2019:** Official opening.

2019 U/14 Australian Club Championships for Boys and Girls

This event brought together 24 Boys and 24 Girls Club based teams who had all qualified through various competitions in each State and Territory of Australia. It represents the largest under-age competition run by Basketball Australia each year.

Basketball Ballarat won the right to host this event in 2019 and it was the first major tournament to use the new Ballarat Sports Events Centre courts as its hub. This meant that 4 championship courts were set up at BSEC and 2 at the Minerdomo. As host the Ballarat U/14 Miners and Rush were able to be entered into the event with both teams performing creditably. The Boys finishing 4th in the Shield and the Girls 7th.

As a test for the new venue BSEC came away with flying colours. Visiting teams were most impressed with the spaciousness of the new courts, the fit out of the changerooms and the overall sense of quality fittings throughout. So much so that we have had subsequent visits from Council and Recreation staff from Newcastle and Launceston in recent months to clarify their own plans for new stadiums.

As usual the Ballarat volunteer body came to the fore and coped with everything from water barrels to court signs, from live streaming to zone-busting, as well as the normal duties associated with scorebench and venue management. It was a wonderful team effort to support the 192 games played over the 6 days of the event. What is noteworthy within this team effort is that the organising group readily agreed to continue their work onto the U/18s to be staged in April 2020.

From the competition point of view there was some outstanding basketball played by many of the teams and at times it was very hard to comprehend that we were looking at 13 year olds, such was their level of skill and their understanding of game concepts. Hawthorn Magic were the Club which performed exceptionally well getting both their teams into the Gold Medal games and went within a whisker of achieving an unprecedented double. Their girls defeated the Melbourne Tigers convincingly while their Boys lost against Hills Hornets, but only after overtime and that came when a tip in at the end of regular time was disallowed by the referees following a review. The noise in the stands was deafening as the crowd of more than 2500 became enthralled in both Gold Medal games.

During this event the annual Basketball Australia Coaches Conference was staged at Ballarat Grammar. This was the first time this had been moved from the Centre of Excellence in Canberra. The holding of this during the U/14 Club Championships only served to add prestige to the reputation that Basketball Ballarat has forged in the tournament sphere across Australia.

Mark Valentine - Operations Manager

Hotondo Ballarat Miners

At the beginning I was not sure how the senior Miners team would perform because basically we were a new team and with a new coach coming together for the first time, except that I felt we put together a balanced team and we would be competitive in the league.

We implemented an aggressive style of play on defence and an attacking offence centred on each players strengths and weaknesses. Our strategy and scouting was based on trying to reduce our opponent's efficiency and taking away their strengths and attacking their weaknesses.

We had a very good season making the top 4 and winning our semi-final before losing our preliminary final in a close contest to the experienced and eventual Champion Nunawading Spectres.

We probably surprised a lot of people and many teams and outsiders with our performance because we came together for the first time and were a young team.

Our inexperience, lack of consistent 3 point shooting and depth at the point guard due to our import guard missing 12 games made it tough at times.

However I was very pleased with how we played particularly with the high level of effort and focus over the season.

HOTONDO BALLARAT MINERS AWARD WINNERS

MVP – Jerry Evans (import)

Coaches Award – Kuany Kuany

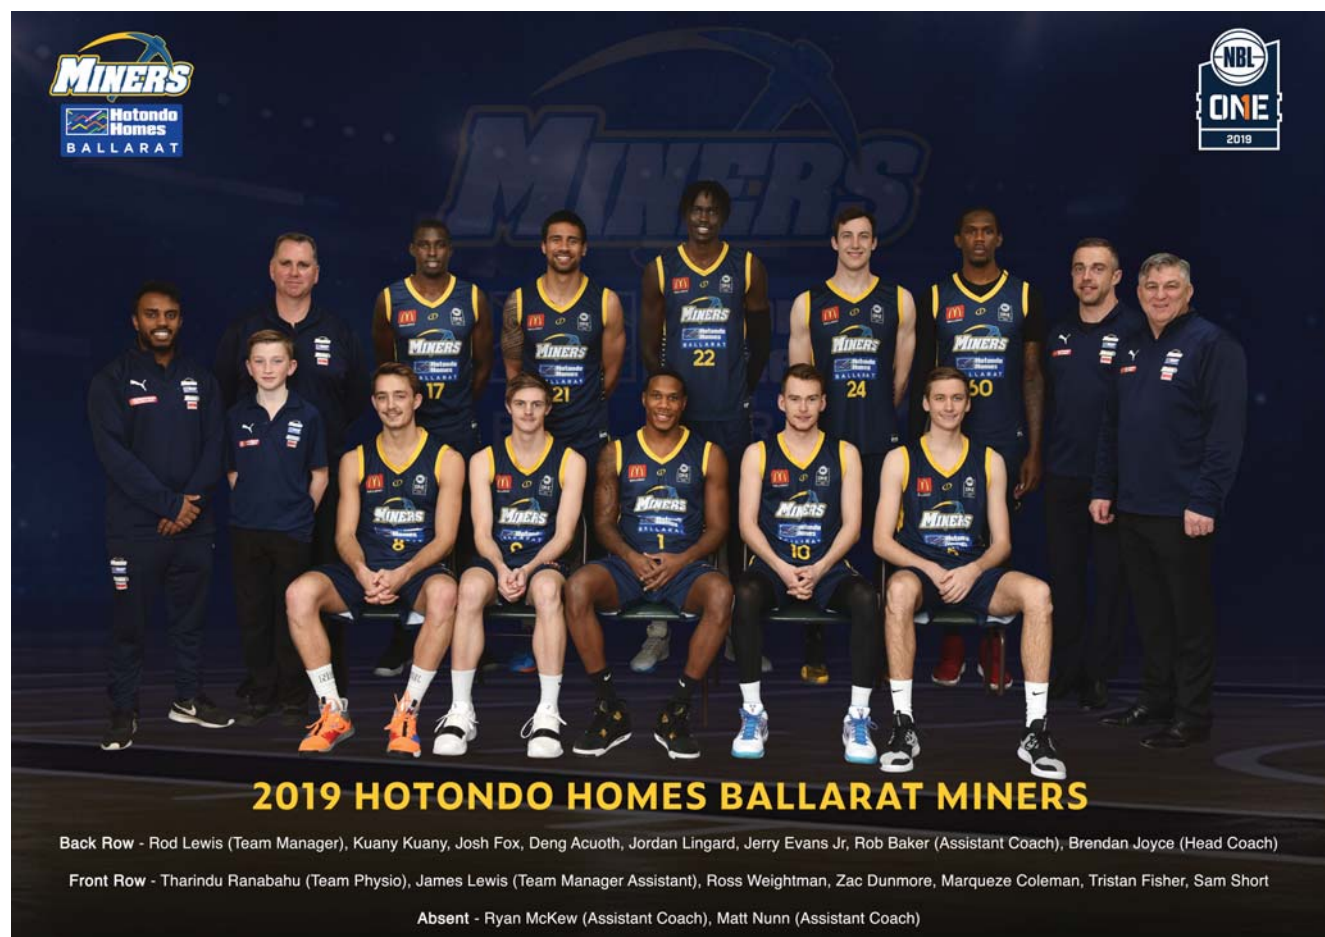

Best Defensive Player – Deng Acouth

League Award – Jerry Evans All-Star 5

I was thankful to have a season long commitment from Matt Nunn and Rob Baker as assistant coaches and Ryan McKew assisted for 5 games as well. Both Rob and Matt were fantastic in their roles for our team. I was also very proud to see our Youth League men's team coached by Daniel Knaggs buy into the alignment of style of play and win a championship and move up to the top level for season 2020.

This means we are the only country team to have both our Youth League teams and NBL1 teams playing at the highest level in Victoria.

Brendan Joyce – Head Coach

Selkirk Rush

It was a very mixed bag for the team in 2019 which saw them finish 3 games out of the finals. For nearly half the season the team could not string wins together until a surge in May saw them win 5 on end, only to follow that with a disappointing run of 6 losses to end the season. Even a 50:50 split here would have seen them threaten a finals position.

SELKIRK BALLARAT RUSH AWARDS WINNERS

Robyn Maher MVP Award – Chanise Jenkins

Dawn Jose Coaches Award – Joy Burke

Rising Star – Georgia Amoore

Defensive Player of the Year – Lucy Cochrane

2019 SELKIRK BALLARAT RUSH

Back Row - Annette Taylor (Team Manager), Eric Hayes (Coach), Lucy Cochrane, Joy Burke, Claire Blower, Olivia Hackmann, Megan Collins (Assistant Coach)

Front Row - Laura Taylor, Annie Collins, Chanise Jenkins, Claire Constable, Georgia Amoore, Millie Cracknell

Absent - Amelia Jarvis

Youth League Rush

A really tough year for this young side which only captured 3 wins for the season, but on the positive side 17 players were used on the roster giving the girls valuable experience for coming years.

BALLARAT RUSH YOUTH LEAGUE AWARDS

Bev Harwood MVP – Annie Collins

Defensive Player of the Year – Trinity Skenderis

SET Coaching and Development

Whilst the public face of the Director of Coaching can be seen courtside on a game night the background work is equally as important. Here is a quick overview of that work.

Early on the process of recruitment and negotiation with potential Miners and Rush players and agents together with members of the SET committee assumes importance.

Next a range of training programs have to be prepared. These take into account the overall style of play, the needs of pre-season and the strategies and cultures that have to be understood for the whole season. Writing the programs is one thing, implementation at training and in individual sessions is another, as the theory is transferred into the team environment.

The work continues down the pathway as the program is aligned with the Youth League teams and assistance has to be given to the coaches at this level as well.

The key to making this gell is regular and clear communication which completes the circle in some respects because if all comes together the teams will perform well and the supporters will celebrate the wins alongside their favourite players and with the coaches.

Brendan Joyce – Director of Coaching

Youth League Miners

After just missing out of finals in 2018 the Ballarat YL Miners were very dedicated and focused on having a productive off season and being as prepared as possible for the 2019 season in YL1 Men.

Coaches made some roster changes with regional recruits and Ballarat Juniors entering the senior ranks.

The Ballarat Youth Miners had a remarkable year and ended the regular season with 18 wins and 4 losses.

After a story book win against Corio Bay in the semi's with Zac Dunmore hitting a 3 point shot to send us into over time where we took control and finished the game with a win 102 – 99 the Youth Miners were off to the Grand Final series against rival Geelong Supercats.

Game 1 was held away at Geelong Arena. The team had the mentality of stealing a win and taking our series back home to Ballarat at the Mars Minerdome. We came away with a solid win, the final score being 92 – 80. Stand out performers being Blake Alison with 17 rebounds and 11 points, Amos Brooks 13 rebounds and 14 points and Liam Alison (Captain) 10 rebounds and 14 points.

Game 2 at the Minerdome saw the Youth Miners win the Youth League One Championship and promote us back to State Championship division. Youth League coaches Daniel Knaggs and Ryan McKew took over the program in 2018 with the goal of creating a high-level program with dedicated athletes and the overall goal of making our way back to the State Championship division. Final score 110 – 89 Miners way. Stand out performers being Blake Alison 15 rebounds and 19 points, Amos Brooks 11 rebounds and 11 points, Liam Alison 7 rebounds, 6 assists and 13 points and Jezz McKenzie who battled through injury all final series 5 assists along with 14 points.

BALLARAT YOUTH LEAGUE MINERS AWARDS

MVP of the final series – Blake Alison

MVP – Jezz McKenzie

Defensive Player of the Year – Blake Alison

Ryan McKew/Dan Knaggs

Front Row - Atto Zivave, Jezza McKenzie, Dyami Hayes, Ross Weightman, Jesse Dimartino

Absent - Josh Allison, Blake Allison

Ballarat West and Phoenix College Development

After commencing a free grassroots program running out of Phoenix College called 'Mini Miners and Rush' we made the move into creating an official Aussie Hoops program at Phoenix College to service our community in Ballarat West. The program has been on a continuous rise with numbers increasing term by term.

Term 1 2019 = 11

Term 2 2019 = 13

Term 3 2019 = 18

Term 4 2019 = 23

We have also had success with Holiday camps commencing, again running out at Phoenix College having over 50 participants come through the doors.

Rookie Hoops development program has also now cemented itself as a consistent program in Ballarat West, this program having now completed 2 terms and having over 20 participants.

The final program to commence at Phoenix College servicing our Ballarat West member is the 'Next Level Development program' offering existing domestic players another opportunity to train with our qualified coaches and enhance their skills. This program piloted in Term 1 2020 and has had 10 participants entered.

As a total we have had over 150 participants enter our programs in the Ballarat West area, as we continue to move forward and expand our programs within the area and expect to see continuous growth and success.

Ryan McKew - Development Coordinator

Ballarat Wildcats

The club has had a great year, our numbers are pushing 300 and our JET representation is expanding every year.

We are working well out of the Eastwood Leisure Centre and now offering some training sessions at our new training court at Phoenix P-12 Community College. This opportunity gives us more space and training times for our increasing numbers.

We welcomed a few new families onto our committee this year following the loss of a number of members last year, which was very pleasing.

Our team diversity continues while we continue to provide opportunities for kids of all abilities. We are very proud of our junior players who are participating in all aspects of Ballarat Basketball, including as coaches and referees.

Exies Acmy

Welcome to another edition of the Exies Acmy Yearbook.

The year has flown by and we take this opportunity to reflect on the year just gone but more importantly look to the year ahead.

Briefly, our on-court success in girls and boys was fantastic during the winter Championship season and I would like to congratulate all the players, coaches and parents for making it rewarding for all.

Our committee has worked well this year and kept the wheels of progress turning to ensure there are coaches, uniforms and teams to enable our kids to play this great game of basketball.

Like many clubs we rely heavily on the generosity of a small number of volunteers and to them, I say thank you so much for your efforts, your help and giving up your time to ensure the kids have a great club to play for. Being that we are all time poor the old adage of many hands make light work it would be great to see more current and new parents to the club getting involved and jumping in, whether it be through a role on the committee, an offer to help on the fundraising opportunities that we have during the year of which there are only two.

Other options are to come on board as a team manager or enrol in one of the coaching courses we advertise throughout the year. The more coaches we have the easier it is to learn as you can buddy up with a current coach to have a go without the complete responsibility of owning the team right from the start. Coaches are one of the hardest resources to find and tends to restrict the growth opportunities we have as a club and reduces the ability of your child to play the number of games they would like or play in the teams or level they would like to play in. Our coaches this coming year are one of our main focuses as we recognise that the more we upskill our coaches the better the level of learning is for your child. So if you would like to learn to coach or you have some previous experience please let us know, we would love to hear from you.

I also want to take this opportunity to thank Ash McSparron for many years as the Exies Treasurer who is stepping down. It is always good to know you have a responsive, club centred person in this role and Ash you have filled the role with all the attributes of a loyal Exies Club person and a skilled treasurer. Following his departure, we have been fortunate to have received an application from Donald Bengtson a past member and contributor to the club and we will be happy to have him on board.

We also say thank you to Ange Bentley who will be stepping down as social coordinator and we as a committee want to thank her for all her hard work and enthusiasm with which she performed her role here at Exies. Thank you Ange and we wish you good luck.

To parents and friends we are committed to providing your children with a great place to play a great game and look forward to seeing you throughout the year.

Sovereign Knights

The last 12 months have been a challenging and busy time for us at Sovereign Knights Basketball Club. We have seen a new committee elected in and changes with the roles of the club. We gained new players which has been great for our boys side, however the girls side is still struggling. We have been working with Ryan at Ballarat Basketball to run a club based Aussie Hoops program which will starting in April (all going well) which we are all excited about.

We have undertaken a rebrand within the club with new uniforms be rolled out for the 2020 Championship season. We are looking forward to the next 12 months.
